WE’VE WEATHERED THE STORM

Where Were You.....

..... in September of 1959 when a tropical storm hit Northern California and dumped 12 inches of rain in one day?

..... in 1962 when the Columbus Day storm hit Oregon, Washington and Northern California, causing $250 million in damage?

..... in 1973 when Hurricane Ava unleashed 120 mph winds on the Island of Hawaii?

..... in September of 1977 when Hurricane Doreen devastated parts of Arizona, causing $25 million in damage?

..... in 1998 when El Nino hit the Pacific Coast?

Hopefully, in a home equipped with International windows.

Let’s face it – life has its share of stormy weather. That’s why it is important to furnish your home with windows and patio doors that you can depend on. For over 50 years, International Window has specialized in making weather-resistant windows and patio doors in a variety of styles. In other words, we worry about the weather forecast . . . so you won’t have to.

True to its namesake, the Majestic Series is distinguished in beauty, strength, durability and functionality. Every window and patio door is constructed from the highest grade vinyl available on the market today. The Crown Series offers homeowners attractive, functional windows and patio doors at an affordable price. Whether you are redecorating, building a new home, or adding on to an existing one, our comprehensive line of vinyl products offer a stylish look to fit every budget.

Over the past 50 years, other window companies have come and gone. Sure, there are still a few good ones. But at International Window Corporation we’ve weathered the storm . . . and there’s just no substitute for experience.
At International Window, quality is our trademark. That is why we leave nothing to chance. We use quality vinyl in all of our windows and patio doors. Each product then undergoes rigorous testing to ensure its adaptability to changing climatic conditions. By using state-of-the-art technology, we are able to consistently manufacture premium windows and patio doors.

Many companies talk about customer service, at International Window, we embrace it. Treating each customer with respect and dignity. That means keeping our promises, standing behind our products, shipping on time and listening to our customers’ needs and our dedicated sales staff is available to assist you. Frankly, we value you as a customer, we appreciate your business and we’ll do what it takes to make you happy. It’s that simple.
MAJESTIC SERIES 5500

The Majestic Series has set the standard of excellence in the industry. The multi-chamber frame is heavy, remarkably strong and durable. International Window understands the importance of providing a secure environment for your family, we reinforced our sash with aluminum to add structural integrity and impede forced entry. Anti-theft devices like our recessed latch and lock system with secondary security mechanism are standard features in the Majestic Series and each window incorporates 100% welded joints and corners for added strength and security. As a result, each Majestic window also meets commercial rating requirements (C30). Specialty options include grids, leaded glass and v-groove glass configurations. Please ask your sales representative for details.

Horizontal Sliding

The Horizontal Sliding Window features many of the same characteristics as the Single Hung. Instead of raising vertically, the sash opens horizontally. The Sliding Window is equipped with premium, adjustable tandem rollers which ensure smooth operation for many years to come.

Horizontal Sliding Window Lock

Shown with optional grid pattern
**The Double Hung Window** is the premier product in the Majestic Series. This window has two sash (window panes) and both operate vertically to allow for optimal ventilation.

The feature which distinguishes this window from that of our competitors is the truly welded corners with slope sill design. This unique trademark ensures long lasting performance. Our even sight line design enables you to maintain the beauty and crystal clarity of your windows from inside the home. Accessing the sash is easy. Simply depress the sash locks at the top of each window and tilt inward. The base of the sash have pivot hinges that will keep the sash attached to the frame. This window is also available in a single hung configuration.

**Single Hung**

The Single Hung Window of the Majestic series provides excellent ventilation with a gentle vertical slide. The upper sash is fixed and the vent sash can be removed for cleaning and maintenance purposes.
**MAJESTIC SERIES 5500**

**Awning & Casement**

### THE AWNING AND CASEMENT WINDOWS

feature a heavy 3 1/4” frame, out swing, rotary operator and butt hinged casement. In addition, the awning and casements feature:

- NEW Euro-style lock and handle
- NEW Truth’s Maxim Euro-style operators
- Custom aluminum butt hinges with a stainless steel pin
- U Factor as low as .30
- Double wall flush fin
- Flanged screen frame for “clean” look
- Extruded tubular aluminum screen frame for added strength
- Available in arch top styles

**Standard Features:**
- Multi point locking hardware
- Triple tier weather strip protection

**Options:**
- Available in 1” glazing
- Stainless hardware

---

**New Full-Flip Folding Handle**

### Majestic Arch Top Casement & Awning Windows

The Majestic Arch Top Casement window will beautify your home for years to come. The contemporary design combines energy efficiency with fashionable style to produce an elegance that is unsurpassed in the industry. The Majestic Arch Top Casement features a unique hinge for extra stability, even sight line, fusion welded frame & sash and multi-chamber frame.
Create an eccentric perspective utilizing our various picture window configurations. For the ultimate in tranquility, try our acrylic block fixture. Acrylic block gently allows light in while creating an atmosphere of peaceful solitude.

Window like people, come in all shapes and sizes. To add spice and variety to a room, select one of our decorative fixed Picture Windows, including circle, quarter round, half circle, hexagon and expanded eyebrow.
Lanai Series 5600 Sliding Door

The Lanai Series 5600 Sliding Door comes with heavy duty tandem rollers, multi-point locking, and deluxe welded frame. It carries the same design and structural details as our award-winning Lanai Series vinyl hinge door. Among other great features, this door comes equipped with IWC’s Energy Shield, a high performance, Low E Glass, which combats the harmful effects of ultraviolet light as well as dramatically reducing the solar energy entering a home.

Majestic Series 5900 Sliding Glass Door

Majestic Series 5900 Sliding Glass Door creates the perfect passage way between your home and the outdoors. The Majestic Series Door is crafted with the same detail as the Majestic Series Window. Vinyl patio doors are available in a variety of configurations that include grid patterns and specialty glass featuring v-groove detailing. A variety of options are available to ensure that maximum visual light is maintained without losing energy during seasonal changes.

Door Reversible in the Field

**BEAUTIFULLY DESIGNED PATIO DOOR HANDLES**
CROWN SERIES 5300

The Crown Series offers homeowners competitively priced windows in a wide range of pleasing styles. In fact, most of the windows in the Crown Series are offered in the same configurations as the Majestic Series. Slimmer in design, these no-nonsense windows are available in dual glazing configurations. Our dual glazed windows provide added thermal and sound insulation. The Crown Series window employs a security latch and lock mechanism for ensured safety. The specialty options include grids, leaded glass and v-groove glass configurations.

Single Hung

The Single Hung Window is the premier Crown Series Window. This product gently glides vertically providing ventilation. The upper sash is fixed and the vent sash can be removed for cleaning and maintenance purposes. The single hung window is available in dual glaze and specialty glass options.

Features

1. 3/4” Dual Glazing Standard
2. Full Welded Frame & Sash
3. Steel Stiffener
4. Multi-Chamber Frame

Security

Crown Lock System
Horizontal Sliding

The Crown Horizontal Sliding Window features many of the same characteristics as the Single Hung. Instead of raising vertically, the sash opens horizontally. The Sliding Window is equipped with premium adjustable tandem rollers which ensure smooth operation for many years to come.

Picture & Acrylic Block

The Crown Series picture windows provide an excellent light source when ventilation is not desired or inaccessible. Create a unique look to your home's character with the picture window of your choice. For obscurity, choose our acrylic block option (pictured on page 4).

Full, Half, Quarter Circle Picture

For a look that's “picture” perfect, select one of our charming fixed windows. Available in various geometric patterns.
Crown Series 5300

**Casement / Awning**

Add personality to your home with the Crown Series Casement and Awning Windows. Using a shaft operator system to open and close the window, casement windows open from the side while awning windows open from the horizontal sill position providing ventilation.

**Bay & Bow**

We grouped a series of window styles together to create an impressive window design. Showcase a large room with Bay and Bow windows from International Window.

**Garden Window**

Designed for the gardening enthusiast, the Crown Garden Window provides understated charm and warmth to the home. Ideal for the kitchen, this window allows plants and herbs to flourish by permitting a limited amount of sunlight to enter the solar chamber.
The Crown Series 5800 Patio Door creates the perfect passage way between the home and a patio, courtyard or veranda. Vinyl patio doors are available in a variety of configurations that include grid patterns and specialty glass finishes. Thermal glazing applications are available to ensure that maximum glass exposure is maintained without losing energy during seasonal extremes. Crown doors are the answer to protection from the elements with style and quality.

* Doors are Available in 4 1/2” and 5 1/2” Frame with or without nail fin.

In keeping with our tradition based on providing quality windows and doors at immeasurable values, we at International Window Corporation are pleased to announce the Lifetime Warranty Program.

At International Window, quality products are our trademark, which is why we have left nothing to chance. Our Lifetime Warranty program is to help assure you, our valued customer, that International Window stands behind its products "For Life!"

We are confident you will be pleased with this advancement and we look forward to providing you with beautiful International Window products for a lifetime.

For more information regarding the International Window Lifetime Warranty please contact your authorized International Window Dealer or visit our website at www.windowsforlife.com.

International Window Corporation appreciates your interest in our windows and doors and will continue to make strides to provide you with the highest quality and value, "FOR LIFE!"
Grid designs are available for most window configurations, providing a rich colonial flavor for your home’s decor. Grid patterns are available in sculptured design and non-sculptured design. Various grid configurations are available creating custom looks.

Window Frame Profiles

Majestic Series Profiles

Crown Series Profiles

A. Flush Fin  B. Block Frame  C. Nail-On Frame  D. Flush Fin  E. Block Frame  F. Nail-On Frame

Multiple window frame profiles are available on most Majestic and Crown products. Three styles of frames are available to meet various applications. The flush fin frame is utilized for replacement of old windows. The block frame is utilized for replacement or new construction applications. The nail-on fin frame is most commonly utilized for new construction applications.
Both the Majestic and Crown Series products offer protection from the sun’s harmful ultraviolet rays while addressing heat conservation issues. Combating the harmful effects of ultraviolet light will assist in reducing deterioration of window treatments, home furnishings and floorings. Low-emissivity (low-e or the ability to block heat & ultraviolet light) glass options dramatically reduce the ultraviolet light’s ability to enter your home. Additionally, reflecting heat, whether internally or externally, is a concern of all home owners from an economic and ecological standpoint. Think smart and inquire about International Window’s low-e glass options to save, in more ways than one!
